Stephanie supports the legal team on legal research, document preparation, matter management, and general practice matters.

Prior to joining JC Legal, Stephanie gained diverse commercial and compliance-related experience across artificial intelligence products and food safety assurance solutions. She supported the commercialisation of AI products, managed product-related projects and cross-team communications, and contributed to international standards compliance for customer solutions and product development. She also worked in the food assurance sector, where she drove client engagement for food safety testing, assurance, and compliance solutions.

Through these experiences, Stephanie developed broader insight into regulated industries, technology-driven businesses, product operations, risk management, and compliance frameworks, which supports her ability to approach legal matters with a practical and commercially aware perspective.

Stephanie is currently pursuing a Juris Doctor on a part-time basis at The Chinese University of Hong Kong. She also holds a Master of Science in Global Food Safety Management and Risk Analysis from The Hong Kong Polytechnic University and a Bachelor of Science in Food and Nutritional Science from The University of Hong Kong.

Stephanie is fluent in English, Mandarin, and Cantonese.
